

## Licensed Clinical Psychologist - Contractor

Well is not a technology company. We are a mental health clinic online.

### About Our Clinicians

Well emphasizes access for our patients, but we are just as eager to build a community that honors the diversity of psychological practitioners in California.

Well is a home for practitioners that might look like you:

- + Full-time mothers looking to return to clinical practice in need of the flexibility afforded by telehealth
- + Disabled psychologists who could benefit from the accessibility of delivering psychotherapy via telehealth while also focusing on the access-focused mission of Well
- + Psychologists with chronic health conditions who can also benefit from the flexibility of working with a telehealth mental health clinic
- + Newly licensed psychologists interested in gaining experience in providing psychotherapy and assessment via telehealth

All interested applicants should be doctoral-level mental health care providers that have expertise and board-certification in psychological specialties including clinical psychology, neuropsychology, health psychology, group psychology, geropsychology, child and adolescent psychology, and marriage and family therapy. Well emphasizes evidence-based practices and is looking for clinicians who value treatment outcomes and implementing empirically supported treatments.

### Position Details

#### What You'll Do

- + Clinical assessment, treatment planning, and intervention delivery for patients with Anxiety, Depression, OCD and related disorders

- + Ability to manage the health and wellbeing of patients of all ages, track patient progress using validated outcome assessments, and have a passion for quality, safety, and data-driven mental health care
- + Ability to supervise clinical psychology interns

### Why Well?

- + Competitive compensation commensurate with experience
- + Remote telepsychology using Well's secure patient portal powered by Kareo
- + Interdisciplinary collaboration with teams including psychiatrists, psychologists and other therapists
- + Opportunities to gain advanced training in group therapy
- + Opportunity to help build a culture that values self-care and collaboration
- + All new team members receive a Welcome Pack including a personalized embroidered clinician's coat and home office enhancements
- + We are driven by our social mission and are looking for team members that want to meaningfully innovate behavioral health through quality, engagement, and access

### QUALIFICATIONS

#### Education and Experience

- + Provider must have a current and valid independent license to practice in the state of California and must legally reside in CA
- + PhD, PsyD, or other doctoral-level degree in mental health
- + At least 1 to 2 years of experience providing therapy
- + In-network with Cigna, Tricare, Medicare, and/or United Healthcare ideal
- + Must be tech-savvy, resourceful with a smartphone or tablet, and have experience working with EHRs, experience with Kareo EHR preferred
- + Must have reliable internet connection
- + Yearly background check is required
- + Experience working cross-culturally with diverse populations
- + Experience leading groups & familiarity with group dynamics

#### Competencies

- + Excellent interpersonal, verbal & written communication skills
- + Strong administrative & organizational skills
- + Capacity for self-reflection, humility, respect for difference & ability to manage disagreement
- + Flexibility, patience & ability to adapt to developing program needs
- + Maturity, initiative, resourcefulness & ability to creatively problem-solve
- + Interpersonal warmth, empathy, sense of humor & calm
- + Strong desire for personal & professional growth
- + Attention to detail & ability to effectively attend to responsibilities
- + Proficiency with MS Office Suite & Google Drive
